"Thank you to everyone at AATC for giving me a second chance at life."

-AATC patient

COMMUNITY PARTNERSHIPS

AATC partners with community outreach programs, probation and parole offices, local health departments, and Social Services to form a comprehensive treatment plan for those suffering from opiate addiction. Our professional clinicians deliver interventions and coping skills to clients who continue to suffer from opiate cravings and engage in dangerous behaviors. AATC's staff offers warmth and compassion while giving clients the tools they need to be successful and to start a new life.

MEDICAL & COUNSELING SERVICES

Addiction is a serious, detrimental disease. Our therapeutic board certified physicians, licensed nurses, and professional certified addiction counselors use a team approach to support the medication used in treatment along with clinically sound interventions.

AATC'S therapeutic practices are designed to set our patients up for success.

METHADONE & BUPRENORPHINE SERVICES

At American Addiction Treatment Center, we realize and understand that addiction is a very complicated disease of the mind, body, and spirit. We treat opiate addiction with a proven combination of medication, professional counseling services, and close monitoring. Our caring medical staff and counseling staff gently guide our patients through a series of group and individual interventions designed to improve overall patient wellbeing and eliminate illicit drug use.

Our service fees are reasonable and affordable.
